Helga Bebeti

Nationality: Albanian   (+355) 696280384   hbebeti94@gmail.com   Street Aqif Pasha, Elbasan, Albania

WORK EXPERIENCE

2022 – Tirana, Albania
Front end developer – PayLink Company

My responsibilities as a front end developer were to optimize the visible parts of an application for web browsers and mobile devices. Front end platforms are usually built with HTML, CSS, and JavaScript; however, they can also be made via pre-packaged code libraries or content management systems like WordPress.

2023 – 2024
Freelance Front end developer

As a freelance front-end developer, I specialize in creating responsive, user-friendly web interfaces that bring designs to life. My work focuses on building the client-side of websites and applications, ensuring seamless user experiences across all devices and browsers. I collaborate directly with clients and design teams to transform concepts into clean, efficient code using modern web technologies and best practices.
I handle everything from implementing complex user interfaces to optimizing website performance, using technologies like HTML5, CSS3, and JavaScript. My workflow includes modern development tools and frameworks to deliver scalable, maintainable solutions that meet both user needs and business objectives.

EDUCATION AND TRAINING

2020– 2022
MASTER OF SCIENCE IN Information Technology– Luarasi University

2017 – 2019
